Ademco e-Key

From \$600, call 6224-7377 for more details

Fancy unlocking your door by just walking up to it? The trick is to turn your mobile phone into a master key with this Bluetooth security system.

The e-Key can be set to recognise your phone via Bluetooth from 1 to 20m away.

Get within range to unlock the door. To lock it, move out of range.

Choose total handsfree access or passcode entry plus a registered phone.

The e-Key can be installed on electronic gates, doors or alarm systems.
