## About Us

With over 30 years of focus on security in Asia, ADEMCO is synonymous with innovative solutions and an established service infrastructure.

We are committed to supporting our customers in meeting the dynamic challenges of security in Asia, developing unique security insights across different industries and providing long term, sustainable support to our valued customers.

## iLOQ: The Key to "Greener" Security

The iLOQ electronic locking solution is a unique locking solution for access management to **offices, buildings, remote sites, shops, apartments and even kiosks.**

There is no more fear of loss or duplicated keys; and expensive change-outs. iLOQ allows you to decide which key opens which door, while retaining audit of who opened which door and when!

The system offers a **complete range of lock versions:** cylinders for doors, lockers and cabinets, padlocks, key-tube locks and electronic key-reader modules for e.g. **controlling elevators, barriers and alarm systems.**

- **Upgrade security** - Replace mechanical locking with digital high-security where encrypted key cannot be copied
- **No mechanical cut** - Unlike traditional keys, it cannot be mechanically duplicated
- **No Re-keying** - Unlike traditional keys, there is no lengthy wait for new keys
- **Easy installation and maintenance** - No batteries or cables needed
- **Blacklisting of lost keys** - Other keys & locks need not be changed nor reprogrammed
- **Convenience** - Only one key needed for one person!
- **Save time, money and the environment** - No batteries at all! No wires! No changing out cylinders!

## Surveillance-Grade Video Storage

Pivot3 invented its award-winning High-Definition Storage, **delivering more than sixteen times the performance at half the cost of traditional solutions**, to uniquely solve the storage needs of bandwidth and capacity-intensive environments such as video surveillance.

Its leading-edge storage technology, offered in a pay-as-you-grow model, has been deployed in **public safety, gaming, education, transportation and government markets.**

Customers, resellers and partners are embracing Pivot3's easy-to manage, affordable and scalable storage, because it fits a need where solutions do not exist today.

### **Case Study: Resorts World Sentosa**

Ademco is proud to be the selected vendor for the Unified Security Management Solutions at Resorts World Sentosa.

Ademco integrated RWS' security system with their management functions, enabling employees to use the same access card for time attendance, payroll, point-of-sales systems, and even to get food.

By integrating security systems with these back-end solutions, RWS effectively got the most out of their investment in security by using it as a platform to assist in their business operations management.

### **Event: ADEMCO Security Seminar May 2010**

Ademco held its much anticipated security seminar on 14 May 2010 at Hotel Royal @ Queens and was met with overwhelming response.

More than 140 participants attended the seminar from the government sector, M&E sector and private businesses.

This time, the focus was on the future of IP video surveillance technologies, with speakers from Axis, OnSSI and Pivot3 covering the full range of video surveillance topics from cameras and video management, to storage solutions.

A big THANK YOU to all the speakers and participants who made this event a roaring success. Do keep a look out for our next event with more exciting topics lined up for you!

### **New: Ademco in the News!**

Since our completion of the management buyout in the beginning of this year, the media has had their eye on Ademco and we have been making the news in various publications.

We have now set up a NEWS section on our website in order to share our progress with you – our valued customers and partners.

Ademco has appeared in the Straits Times, Business Times, Sunday Times, Smart Investor, Square Rooms with various topics from our company history to providing industry insights and expert opinions.
